Stardust

61-125cm / max. 21kg, 105-150cm

Warning:

Do not modify the Stardust child safety seat in any way, as it may affect the child's safety during its use.

Never place the Stardust child safety seat on an elevated surface, e.g. on a table or chair.

Do not use in a rearward facing configuration in seating positions where there is an active frontal airbag installed.

The Stardust child safety seat should only be installed in the car facing backwards to the driving direction.

It is totally forbidden the use of the child safety seat in forward facing configuration before of 15 months of the baby.

Follow closely the installation instructions provided by the child restraint manufacturer.

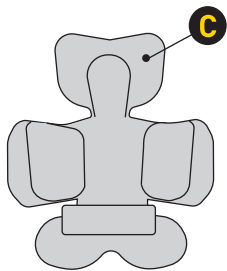

For more information, please refer to the vehicle manufacturer's handbook.

If the vehicle has an Airbag, move the seat with the forward-facing car seat as far back as possible. You can turn the child to face forward when they reach 76 cm in height.

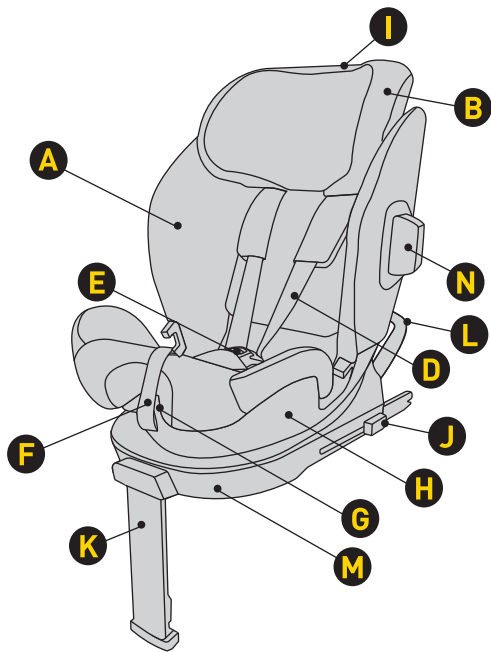

Avionaut Stardust car seat can be installed in the vehicle in both directions.

It is totally forbidden any alterations or additions to the device without the approval of the Type Approval Authority.
